## EDUCATION

---

**University of Cincinnati, Carl H. Lindner College of Business, Cincinnati, Ohio**  
*MS Information Systems (with coursework in Human-Computer Interaction)*

**Graduation Date**  
December 2016

**Manipal Institute of Technology, Manipal, India**  
*Bachelor of Engineering in Computer Science*

**Graduation Date**  
May 2012

## RELEVANT WORK EXPERIENCE

---

**Square, San Francisco, CA**  
*Senior Fullstack Software Engineer, Tech Lead*

**Jul 2020 - Current**

- Led a team of 3 engineers to redesign Square Online's onboarding flow - this involved completely rearchitecting e-commerce site creation using a brand new theming system for Square Online. The new flow led to an uptick of 24% in the number of sellers that make it to their first sale and has been used to create roughly 82K sites as of January 2024.
- Led development on several Square e-commerce features including Self-serve ordering, QR code generation, Instagram integration and Customer accounts.
- Led the internationalisation effort on seller-facing UI for Square's expansion into Ireland and France.
- Conducted over 80 engineering interviews.

**Walmart Labs, Hoboken, NJ**  
*Senior Front-end Software Engineer*

**Sep 2019 -Jul 2020**

- Led the design of a micro frontend architecture for a new suite of internal Walmart pricing tools.
- Participated in the development of a React based component library and design system for Walmart's internal pricing dashboards.
- Actively participated in hiring - conducted over 30 interviews.

**ShopKeep, New York, NY**  
*Software Engineer*

**Jul 2017 - Sep 2019**

- Built reusable UI components using Vue and React.
- Participated in the creation of an internal React component library using StoryBook.
- Participated in the development of Flask microservices.
- Led the development of a service to provide access to the company's support information.
- Configured and deployed React apps using docker.
- Designed and implemented a strategy to measure usage data and conduct A/B tests using Google Analytics, Google Tag Manager and Optimizely.

**Wolters Kluwer, Riverwoods, IL**

**May 2016 - Jul 2017**

### *UI Designer / Front-end Engineer*

- UI design on internal web-based apps that involved visual design in Sketch and developing HTML prototypes.
- Front-end development on web projects using ECMA 6 JavaScript, SASS and Bootstrap.
- Built reusable UI components using AngularJS.
- Added unit testing using Karma and Jasmine.

**Freelance, Bangalore, India**

**Aug 2013 - Dec 2014**

### *UI Designer / Front-end Web Developer*

- Designed web and mobile products that included conceptualization, wireframing, final visual design and HTML prototyping.
- Worked on and completed design projects for multiple clients including Thrillophilia, Cleartrip and RentCheck.

## **SKILLS**

---

I've written production level code in -

- Front-end - React, Vue
- Server side - PHP, Node, Python
